## **Multiplication Bingo**

### **Equipment:**

**Pencils**

**A set of tables squares**

### **Rules:**

This is a game for a whole class, getting them more familiar with a tables square and how to use it.

Each player circles 15 of the answers on a tables square.

The teacher then calls out tables questions such as: 4 times 6.

If a player has circled this answer they quickly cross it out, (or colour it in).

The winner is the first player to have crossed out all 15 numbers. He/she should call out the 15 winning multiplication sums.

(It is a good idea for the teacher to cross out the answers as they are called out to ensure that the winner has correctly marked his/her square.)

# MULTIPLICATION BINGO!

1	2	3	4	5	6	7	8	9	10
2	4	6	8	10	12	14	16	18	20
3	6	9	12	15	18	21	24	27	30
4	8	12	16	20	24	28	32	36	40
5	10	15	20	25	30	35	40	45	50
6	12	18	24	30	36	42	48	54	60
7	14	21	28	35	42	49	56	63	70
8	16	24	32	40	48	56	64	72	80
9	18	27	36	45	54	63	72	81	90
10	20	30	40	50	60	70	80	90	100

Ask your  
teacher  
how many  
numbers  
you need  
to circle.

1	2	3	4	5	6	7	8	9	10
2	4	6	8	10	12	14	16	18	20
3	6	9	12	15	18	21	24	27	30
4	8	12	16	20	24	28	32	36	40
5	10	15	20	25	30	35	40	45	50
6	12	18	24	30	36	42	48	54	60
7	14	21	28	35	42	49	56	63	70
8	16	24	32	40	48	56	64	72	80
9	18	27	36	45	54	63	72	81	90
10	20	30	40	50	60	70	80	90	100
