

Magical Mathematical Marvels!

Plucking the answer out of a hat.

For this lovely piece of magic it is a good idea to have a hat and before you do the trick put in number cards with these digits on. You also need a calculator.

Ask your victim to choose a number between 1 and 6 and enter it on the calculator.

Then follow these instructions:

1. Multiply the number by 9
2. Multiply the answer by 111
3. Multiply the answer by 1001
4. Divide the answer by 7.

Say all the magic words you know and then ask them to pick a numbers out of the hat,. See if the number matches a digit on the calculator - it should! Carry on until all six numbers have appeared. All your victim needs to do is put them in the same order as on their calculator screen!
